Chapter #07 – Sacramento SALSA (No report submitted)
CHAPTER MEETINGS
META has had two chapter meetings (10/1/16 and 1/26/17) this year, and has two additional chapter meetings planned for April and May. Martha Zaragoza-Diaz was the featured speaker at the January meeting, sharing a presentation about Prop 58 and the political context for multilingualism.

PROFESSIONAL DEVELOPMENT EVENTS
META is planning two professional development events. The first is a spring fundraiser scheduled for May 10th and featuring Dr. Milton Chen, who will be speaking on “The Role of Multilingualism in Achieving Student Global Readiness.” Flyers are attached, but registration is also possible through EventBrite at <https://www.eventbrite.com/e/meta-the-role-of-multilingualism-in-achieving-student-global-readiness-tickets-32456106087aff-es/>. This session will also feature CDE’s new global readiness document. Information about this PD session will be available at the META booth at the CABE 2017 conference.

In collaboration with ATDLE, META is planning a dual language education research symposium for October 2017. The working title is Success, Sustainability, Scholarship and Social Justice - The Incontrovertible Power of Dual Language Education to Transform Schools. More information, including a SAVE THE DATE flyer will be available shortly.

SCHOLARSHIP EVENT
META is planning to offer at least one student scholarship this year at its May 18th meeting. The META Scholarship Committee has developed the application form and it is being shared in our region now.

STARTALK GRANT
In collaboration with Patterson JUSD, META was successful in writing a STARTALK grant, MOSAAIC, which was selected for funding in the amount of almost $90,000. This grant will support a one-month long intensive Arabic language program for Patterson area students in grades 5-7. META secretary, Francisca Sanchez, presented a report to the PJUSD board earlier this month. An article which features this great news is attached. Francisca will serve as the program director for the grant. She will be attending the STARTALK conference in Chicago at the end of April.

DLE PARENT ACADEMY
META, in collaboration with the former Two-Way CABE Board members, is developing a Dual Language Education Parent Academy, which will be launched in August 2017, through a contract with Patterson JUSD. This academy is designed to be delivered over four half-days, in English and/or Spanish, and will provide attendees with a DLE Parent Handbook and Journal. Information about the Academy will be available at the META booth at the CABE 2017 conference.

The Role of Multilingualism in Achieving Student Global Readiness

Dr. Milton Chen

SESSION DESCRIPTION
Attendees will meet Dr. Milton Chen and hear him speak about the vital role of multilingualism in achieving student global readiness. In today’s technology-driven globalized world, our students are not limited by the boundaries of their neighborhoods. They live in a global world that requires high levels of competency in multiple languages in order to be able to navigate it with ease and to develop deeper understanding of the world’s economic, social, and political issues. Multilingual competency is no longer a luxury – it has become a necessity. After all,

- Economies are becoming more interdependent and more connected to international trade. (One in five jobs is tied to international trade.)
- American society is increasingly diverse. (The “minority” is now the numeric majority.)
- Global challenges are becoming more complex, calling for coordinated global responses. Such timely responses require an understanding of different languages and cultures to facilitate communication.
- Multilingual competence enhances overall academic achievement. (Learning additional languages makes us smarter, more cognitively flexible, and more creative.)
- Technology has shrunk the vast distances between continents and time zones so that instantaneous communication is now possible, no matter the geographic divide.

To prepare our students for these realities, the education we provide them must help them learn languages of the world, respect for other cultures and languages, and knowledge of the world geography, history, current events, and cultures that give life and are the context in which these languages are used. Dr. Chen will address these issues and provide examples of innovative work being done in these areas.

OUR SPEAKER
Dr. Milton Chen is senior fellow and executive director, emeritus at The George Lucas Educational Foundation (GLEF), a non-profit operating foundation in the San Francisco Bay Area producing the award-winning Edutopia.org website on innovative K-12 learning. He served as executive director of GLEF from 1994 to 2010. Dr. Chen has been the founding director of the KEDI Center for Educators (KED) in San Francisco; director of research at Senseie Workshop in New York; helping develop Senseie Street, The Electric Company, and S-3-1 Content; and an assistant professor at the Harvard Graduate School of Education.

In 2010, he received the NRE Japan President’s Award for contributions to educational media and was named an Honorary National Park Ranger. His 2018 book, Education Nation: Six Leading Edges of Innovation in our Schools, was named as one of the year’s best education books by the American School Board Journal.
