

4.2 NABE Request

On January 11, Jan Corea received the following email from Santiago Wood, Executive Director of NABE:

Dear Jan,

Feliz Año and our best wishes for a most productive and prosperous 2018. I also look forward to joining you at the upcoming ELL Roundtable Meeting at the U.S. Dept of Education with the Director of OELA, Jose Viana, during the week of January 24-26.

Jan, I also wanted to share with you, as early as possible, as we had both agreed, to let CABE know when NABE will be returning to California to hold its annual conference so that we can better coordinate the dates and location to avoid any potential conflicts with CABE's Annual Conference and to mutually share and support each of the institutions.

As you also know, even though there was a breakdown with early communication and effective coordination for the NABE 2014 National Conference in San Diego, NABE sincerely appreciated the strong support and participation received from CABE, particularly in working with Dr. Yee Wan, NABE's President at the time, the NABE Board and yours truly. Because of your leadership and the CABE Board's support, NABE 2014 held a very successful Dual Language Pre-Conference Institute and general conference.

I also want to take this opportunity to notify you and the CABE Board that NABE will be returning to California in February or March of 2020 and we would like to meet to coordinate dates, location and all related support and collaborative issues as early as possible. Our NABE President, Dr. Margarita Pinkos, as asked me to schedule a meeting with you and the CABE Board Officers at your earliest convenience, either in person or via ZOOM Conferencing, so that we could meet to discuss these matters. I look forward to further discussions and confirmation of dates and times. Thanks much, as always, Jan, for your support, respect and trust.

--

"¡Sí se puede!"
