Educator Workforce Investment Grant Program

Information regarding the Educator Workforce Investment Grant program.

Section 64 of the Education Omnibus Trailer Bill (Senate Bill 75) for the 2019–20 California State Budget established the Educator Workforce Investment Grant (EWIG) program to support one or more competitive grants for professional learning opportunities for teachers and paraprofessionals across the state. The California Department of Education (CDE) and the California Collaborative for Educational Excellence (CCEE) are directed to establish a process to select one or more institutions of higher education or nonprofit organizations to conduct activities in the following areas:

- Professional learning activities to implement the California English Learner Roadmap Policy
- Special education-related professional learning
- Professional learning for teachers and paraprofessionals statewide in the following areas:
  - Practices and strategies to create a positive school climate, including social-emotional learning and restorative justice
  - Strategies for providing high-quality instruction and computer science learning experiences aligned to the 2018 California Computer Science Standards
  - Practices to support the 2020 Ethnic Studies Model Curriculum

Positive consideration will be given to applicants that propose to partner with a county office of education or a consortium of county offices of education. Activities will be conducted in a manner that aligns with the statewide system of support, and to the extent practicable, grantees will coordinate activities with the California Subject Matter Projects.

Below you will find information regarding timelines for stakeholder input and tentative release dates for the Requests for Applications (RFAs). New information and guidance will be added as it becomes available. To be notified when new information becomes available, please join the EWIG listserv by sending a blank email message to join-ewig@mlist.cde.ca.gov.
