The California Collaborative for Educational Excellence (CCEE), the San Bernardino County Superintendent of Schools (SBCSS), the California Association for Bilingual Education (CABE), and Families In Schools (FIS) invite any interested school district in California to be on the look out in January 2022 for the RFA to serve in the Community Engagement Initiative’s Cohort III Peer Leading and Learning Network beginning Fall of 2022.

Benefits of participating in the CEI PLLN:

Be a part of systemic change for community engagement.

Learn effective practices for community engagement from districts across the state.

Engage in an open dialogue on issues related to improving local pupil outcomes.

Partner with other communities and school districts on improving community engagement throughout the Network.

Are you ready to transform your district’s Community Engagement efforts?!
